

Norscot's "Machines at Work" Cat[®] Replicas Feature Weathered Finishes, Extreme Detail

Norscot has introduced a six-model series of die-cast scale models bearing "weathered" finishes suggesting Caterpillar[®] equipment that has been hard at work.

"You'll find mud splashes, dirty tires and even grime in the nooks and crannies," said Scott Stern, Norscot's president and CEO. "With their sense of realism and uniqueness, we think these are the perfect models for displays and dioramas, plus HO and O gauge model railroad layouts."

All the models are of heavy die-cast metal construction with realistic Caterpillar colors and decoration. In addition, the models feature multiple moving parts including rolling tires and tracks; articulated steering; and positionable booms, blades, buckets and dump bodies.

Here are model-by-model details:

	<u>Scale</u>	<u>Item No.</u>
Cat D11R Track-Type Tractor	1:50	55179
Cat 315C Hydraulic Excavator	1:87	55183
Cat 140H Motor Grader	1:50	55180
Cat 226B Skid Steer Loader	1:32	55181
Cat 623G Elevating Scraper	1:50	55182
Cat 730 Articulated Dump Truck	1:87	55184
